

**Table A.1. 2010 Standard Error Design Factors – United States (US)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	1.00
Hispanic or Latino .....	1.00
Living in group quarters .....	0.25
Race .....	1.15
Sex .....	1.00
Type of residence (urban/rural) .....	1.50
Age of householder .....	0.80
Family type .....	0.40
Hispanic or Latino householder .....	0.05
Household type and relationship .....	0.80
Multigenerational household .....	0.90
Race of householder .....	0.05
Unmarried partner household .....	0.95
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.55
Vacancy Status .....	0.35

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.2. 2010 Standard Error Design Factors – Alabama (AL)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.95
Hispanic or Latino .....	1.00
Living in group quarters .....	0.25
Race .....	1.10
Sex .....	0.90
Type of residence (urban/rural) .....	1.55
Age of householder .....	0.70
Family type .....	0.40
Hispanic or Latino householder .....	0.15
Household type and relationship .....	0.70
Multigenerational household .....	0.90
Race of householder .....	0.05
Unmarried partner household .....	1.00
<b>HOUSING</b>	
Tenure .....	0.25
Type of residence (urban/rural) .....	0.60
Vacancy Status .....	0.40

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.3. 2010 Standard Error Design Factors – Alaska (AK)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.95
Hispanic or Latino .....	1.25
Living in group quarters .....	0.35
Race .....	1.25
Sex .....	0.90
Type of residence (urban/rural) .....	0.95
Age of householder .....	0.80
Family type .....	0.55
Hispanic or Latino householder .....	0.15
Household type and relationship .....	0.85
Multigenerational household .....	1.15
Race of householder .....	0.05
Unmarried partner household .....	1.05
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.50
Vacancy Status .....	0.50

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.4. 2010 Standard Error Design Factors – Arizona (AZ)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.90
Hispanic or Latino .....	0.85
Living in group quarters .....	0.35
Race .....	1.10
Sex .....	0.85
Type of residence (urban/rural) .....	1.75
Age of householder .....	0.80
Family type .....	0.40
Hispanic or Latino householder .....	0.05
Household type and relationship .....	0.75
Multigenerational household .....	0.60
Race of householder .....	0.05
Unmarried partner household .....	1.10
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.60
Vacancy Status .....	0.30

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.5. 2010 Standard Error Design Factors – Arkansas (AR)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	1.00
Hispanic or Latino .....	1.15
Living in group quarters .....	0.20
Race .....	0.95
Sex .....	0.90
Type of residence (urban/rural) .....	1.50
Age of householder .....	0.80
Family type .....	0.40
Hispanic or Latino householder .....	0.15
Household type and relationship .....	0.70
Multigenerational household .....	0.90
Race of householder .....	0.05
Unmarried partner household .....	1.25
<b>HOUSING</b>	
Tenure .....	0.20
Type of residence (urban/rural) .....	0.70
Vacancy Status .....	0.40

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.6. 2010 Standard Error Design Factors – California (CA)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	1.05
Hispanic or Latino .....	1.10
Living in group quarters .....	0.30
Race .....	1.15
Sex .....	1.05
Type of residence (urban/rural) .....	2.75
Age of householder .....	0.80
Family type .....	0.45
Hispanic or Latino householder .....	0.05
Household type and relationship .....	0.95
Multigenerational household .....	1.05
Race of householder .....	0.05
Unmarried partner household .....	0.85
<b>HOUSING</b>	
Tenure .....	0.10
Type of residence (urban/rural) .....	0.60
Vacancy Status .....	0.30

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.7. 2010 Standard Error Design Factors – Colorado (CO)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	1.00
Hispanic or Latino .....	1.20
Living in group quarters .....	0.25
Race .....	1.40
Sex .....	0.95
Type of residence (urban/rural) .....	1.40
Age of householder .....	0.80
Family type .....	0.40
Hispanic or Latino householder .....	0.05
Household type and relationship .....	0.70
Multigenerational household .....	1.10
Race of householder .....	0.05
Unmarried partner household .....	1.45
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.55
Vacancy Status .....	0.25

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.8. 2010 Standard Error Design Factors – Connecticut (CT)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.90
Hispanic or Latino .....	1.30
Living in group quarters .....	0.25
Race .....	1.25
Sex .....	0.95
Type of residence (urban/rural) .....	1.90
Age of householder .....	0.75
Family type .....	0.40
Hispanic or Latino householder .....	0.05
Household type and relationship .....	0.70
Multigenerational household .....	0.90
Race of householder .....	0.05
Unmarried partner household .....	0.80
<b>HOUSING</b>	
Tenure .....	0.10
Type of residence (urban/rural) .....	0.70
Vacancy Status .....	0.30

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.9. 2010 Standard Error Design Factors – Delaware (DE)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.95
Hispanic or Latino .....	0.90
Living in group quarters .....	0.20
Race .....	0.95
Sex .....	0.90
Type of residence (urban/rural) .....	1.60
Age of householder .....	0.75
Family type .....	0.45
Hispanic or Latino householder .....	0.15
Household type and relationship .....	0.85
Multigenerational household .....	0.55
Race of householder .....	0.05
Unmarried partner household .....	1.00
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.80
Vacancy Status .....	0.35

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.10. 2010 Standard Error Design Factors – District of Columbia (DC)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	1.05
Hispanic or Latino .....	1.00
Living in group quarters .....	0.20
Race .....	1.05
Sex .....	1.00
Type of residence (urban/rural) .....	N/A
Age of householder .....	0.75
Family type .....	0.40
Hispanic or Latino householder .....	0.15
Household type and relationship .....	0.85
Multigenerational household .....	1.15
Race of householder .....	0.05
Unmarried partner household .....	1.15
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	N/A
Vacancy Status .....	0.25

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.11. 2010 Standard Error Design Factors – Florida (FL)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.95
Hispanic or Latino .....	1.00
Living in group quarters .....	0.25
Race .....	1.20
Sex .....	1.00
Type of residence (urban/rural) .....	2.35
Age of householder .....	0.85
Family type .....	0.40
Hispanic or Latino householder .....	0.05
Household type and relationship .....	0.85
Multigenerational household .....	1.25
Race of householder .....	0.05
Unmarried partner household .....	1.05
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.55
Vacancy Status .....	0.40

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.12. 2010 Standard Error Design Factors – Georgia (GA)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.95
Hispanic or Latino .....	0.80
Living in group quarters .....	0.15
Race .....	0.75
Sex .....	0.95
Type of residence (urban/rural) .....	1.20
Age of householder .....	0.75
Family type .....	0.35
Hispanic or Latino householder .....	0.05
Household type and relationship .....	0.80
Multigenerational household .....	0.80
Race of householder .....	0.05
Unmarried partner household .....	0.70
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.45
Vacancy Status .....	0.35

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.13. 2010 Standard Error Design Factors – Hawaii (HI)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.95
Hispanic or Latino .....	1.10
Living in group quarters .....	0.35
Race .....	1.00
Sex .....	1.00
Type of residence (urban/rural) .....	1.65
Age of householder .....	0.75
Family type .....	0.55
Hispanic or Latino householder .....	0.20
Household type and relationship .....	0.95
Multigenerational household .....	0.85
Race of householder .....	0.15
Unmarried partner household .....	1.00
<b>HOUSING</b>	
Tenure .....	0.25
Type of residence (urban/rural) .....	0.45
Vacancy Status .....	0.65

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.14. 2010 Standard Error Design Factors – Idaho (ID)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.95
Hispanic or Latino .....	1.35
Living in group quarters .....	0.25
Race .....	1.90
Sex .....	0.85
Type of residence (urban/rural) .....	0.95
Age of householder .....	0.75
Family type .....	0.40
Hispanic or Latino householder .....	0.10
Household type and relationship .....	0.70
Multigenerational household .....	0.80
Race of householder .....	0.05
Unmarried partner household .....	0.70
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.55
Vacancy Status .....	0.30

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.15. 2010 Standard Error Design Factors – Illinois (IL)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.90
Hispanic or Latino .....	0.90
Living in group quarters .....	0.20
Race .....	1.20
Sex .....	0.95
Type of residence (urban/rural) .....	1.60
Age of householder .....	0.65
Family type .....	0.40
Hispanic or Latino householder .....	0.05
Household type and relationship .....	0.85
Multigenerational household .....	0.65
Race of householder .....	0.05
Unmarried partner household .....	0.80
<b>HOUSING</b>	
Tenure .....	0.15
Type of residence (urban/rural) .....	0.35
Vacancy Status .....	0.35

Note: If the population or housing characteristic cannot be found in the table, use the design factor for a related or similar characteristic.

**Table A.16. 2010 Standard Error Design Factors – Indiana (IN)**

<b>Characteristic</b>	<b>Design Factor</b>
<b>POPULATION</b>	
Age .....	0.95
